

# WAR IS OVER SALT LAKE'S CATHEDRAL BUT THE CEASE TO A WAR

Militia Left For Their Homes Yesterday.

MADE GOOD PROGRESS

ENCAMPMENT PRONOUNCED A GREAT SUCCESS.

Men and Officers Gained Much Valuable Experience as a Result of Their Week Under Canvas—Paymaster General Critchlow Disburses Coin—The Parade.

Camp Wamatch, the center of so much activity and a center of attraction for the past week, is now nothing but a blank field covered with marks of desertion and resplendent flowers. The fighting men of Utah left it yesterday afternoon and now they are in their homes or wandering homeward. They will not have to answer reveille at 5:30 a. m. any more for the present, nor must they be in bed by 9:30 p. m.

Under General Cannon's orders, camp was broken yesterday afternoon, about 6 o'clock, the tents and bedding and other paraphernalia of camp were loaded on wagons, the boys marched out into line and with helds' band playing sprightly tunes they came down town. The line of march was down Fifth South to Eighth East, to Second South, to Main, to South Temple and on West Temple to the armory.

## Dropping the Tents.

One of the prettiest ceremonies of the encampment was the dropping of the tents. Every rope by one or two to hold each tent had been unfurled, and two men were stationed at each tent. A cornetist of the band played the "general call," a rifle was fired and every tent fell gracefully to the ground. Each was quickly rolled up and the men were soon on their way down town. They were in platoons until reaching the arch on Main and Second South, when they formed into columns of fours.

There was a wild scene of turmoil at the armory. The troops, dusty and dirty and tired, hung round their guns and traps to rush for washbasins. Company G left at 8:30 p. m. for Woodruff and company E left for Bountiful during the afternoon. Company F will probably remain until Monday before returning to Main.

## Paid Off the Men.

One of the most interesting features of the encampment yesterday morning—interesting to the men—was the payment by Colonel Critchlow, quartermaster of the brigade, of the per diem due for the encampment. He gave out \$2,815.35.

"The encampment has been successful beyond my anticipations," said Colonel Cannon yesterday afternoon. "Many of these men, a large percentage of them, had seen no service, but they learned rapidly and their operations in drill became excellent as the work progressed. Company G made a splendid record in target practice; it carried off the honors, and I think that company F showed the greatest improvement in marching."

"The state has been well repaid for the money expended on the encampment. The officers learned much faster than the men," said an officer who has noted the improvement of the militiamen. "The officers should study the tactics more closely. They did not have as complete a knowledge of the tactics as they should have had. These companies whose officers showed the best knowledge of the tactics showed the greatest improvement in their drill."

## GALLANT OFFICERS ADVANCED

CAPTAINS DUCAT AND BRETT GIVEN PROMOTIONS.

Former Officers of 24th Regiment and Captain Beck Made Field Officers of the 49th.

It will be good news to the many Utah friends of Captains Arthur C. Ducat and James E. Brett of the Twenty-fourth infantry, formerly stationed at Fort Douglas, and of Captain William H. Beck, formerly Indian agent at Fort Duchesne, to know that they have been promoted to positions in the Forty-ninth (colored) regiment to be organized for service in the Philippine islands. Captain Ducat will be commissioned a lieutenant colonel and Captain Brett a major. Captain Beck will be colonel of the Forty-ninth.

Both Captains Ducat and Brett won high honors for bravery in leading the Twenty-fourth regiment in the battle of San Juan hill. Both were severely wounded in battle.

Captain Ducat is now on General Shafter's staff in San Francisco, and Captain Brett is with his command in the Philippines.

The announcement of these and other promotions is contained in the following Associated Press dispatch:

Washington, Sept. 9.—An order for the organization of two colored regiments was issued from the War Department today. The field officers of these two regiments are white men now in the regular army. All of the company officers will be men who served in the war with Spain in either the regular or the volunteer infantry. The Twenty-ninth will be organized at Fort Thomas, Kentucky, and the Forty-ninth at Jefferson Barracks, Missouri.

The full complement of officers has been selected and following are the field officers: Twenty-ninth, colonel, William H. Duval, captain first adjutant, lieutenant colonel, Thaddeus W. Jones, captain second adjutant, captain, George W. King, first lieutenant seventh cavalry, Alex. L. Dade, first lieutenant third cavalry, John Howard, first lieutenant nineteenth infantry.

Forty-ninth, colonel, William H. Beck, captain tenth cavalry, captain, Arthur C. Ducat, captain twenty-fourth infantry, major, Ernest Hinds, first lieutenant, George W. King, captain, James E. Brett, captain twenty-fourth infantry.

## LIGHT CAMPAIGN EXPENSES

STATE DEMOCRATIC COMMITTEE'S ELECTION EXPENSE.

Treasurer Dale's Report Shows a Balance Left in the Treasury With All Bills Paid.

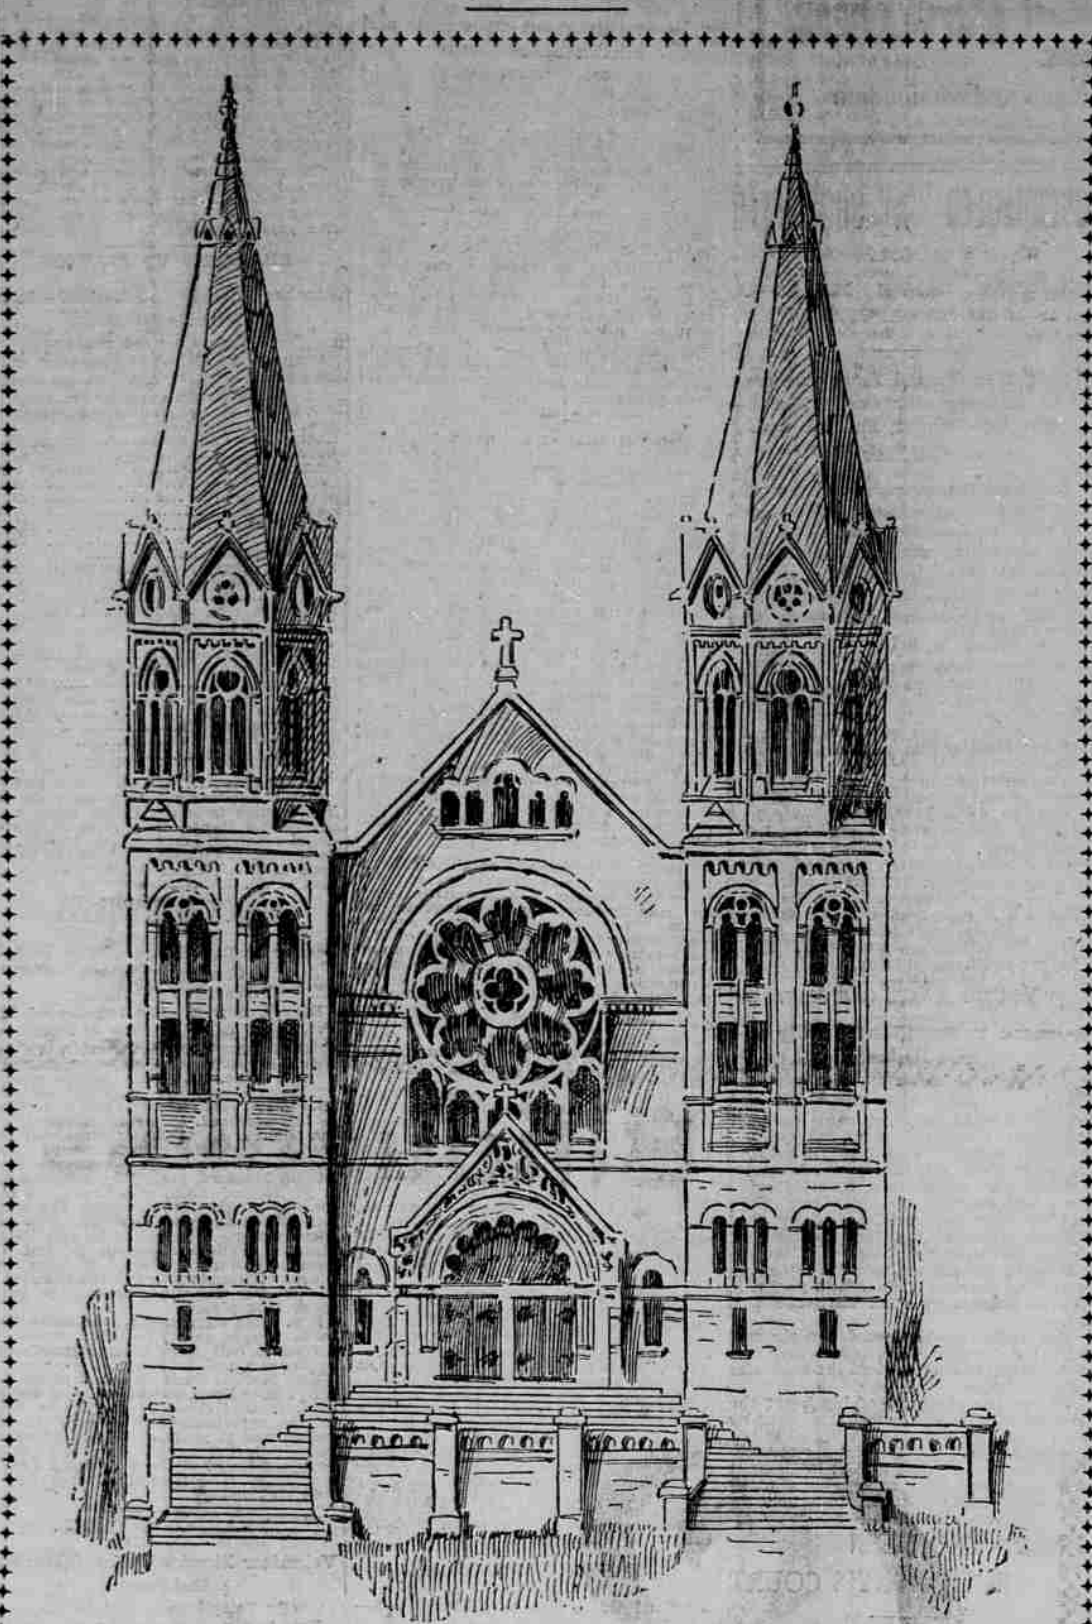

The good work done by the Democratic hosts at in Utah at the last state election was accomplished with the expenditure of comparatively little money. According to the financial report submitted by Chairman Mayle at a meeting yesterday afternoon of the members of the state Democratic committee, the total sum of \$3,300 subscribed was paid over to Treasurer Dale and by him disbursed upon order of the chairman and the secretary, Joseph M. Cohen. The expenditures amounted to \$2,900, leaving a balance of \$400 on hand. There are no unpaid accounts.

Vouchers accompanied the report, and Elias A. Smith and George H. Wood were chosen to audit the statement and report at another meeting.

The meeting was called mainly for the purpose of conferring with William J. Bryan, but unfortunately, Democracy's leader was delayed in his arrival. The Salt Lake fell such a late hour that the anticipated conference was necessarily abandoned.

## Taken to St. Mark's.

Christy, an employee of the Rio Grande Western, residing at 61 South Main street, was taken to St. Mark's hospital last night when he was diagnosed of the case has not been made.

The accompanying sketch pictures the magnificent new cathedral as it will appear when completed, about a year from the coming Christmas.

Bishop Scanlan yesterday definitely approved the design as prepared by Architect C. M. Neuhausen, and directed him to proceed with the preparation of detailed plans and specifications. The design favored first was of the Gothic style of architecture, but this is of the late Romanesque.

The brownstone foundation and retaining walls will be built this fall, and next spring work on the superstructure will be commenced. The cathedral walls will be of gray sandstone, but whether of Kyne, Kemmerer or Rawlins rock, each varying in color and texture, is not yet determined. Bishop Scanlan and Architect Neuhausen will go tomorrow to inspect the quarries near Diamondville, Wyo., and after their return the particular kind of gray stone to be selected for the edifice will be deliberated upon.

The dimensions of the cathedral which will beautify the corner of Brigham and B. streets are: Length, 185 feet; width over transepts, 100 feet; width of body, 75 feet; height of ceiling, 65 feet; height of towers, 175 feet; height of basement, 14 feet.

It will undoubtedly be the most magnificent cathedral between the Mississippi river and San Francisco. The cost will probably be not less than \$150,000, and may reach a much larger sum.

The dimensions of the cathedral which will beautify the corner of Brigham and B. streets are: Length, 185 feet; width over transepts, 100 feet; width of body, 75 feet; height of ceiling, 65 feet; height of towers, 175 feet; height of basement, 14 feet.
